SUMMARY

Software Engineer (SE-1) with hands-on experience building enterprise SaaS applications across **HRMS, Payroll, Attendance Management, Building Management (BMS), SCADA, and Industrial IoT** domains. Experienced in developing scalable frontend applications using **React, Typescript, Tailwind CSS**, integrating backend services with **Spring Boot, PostgreSQL**, and REST APIs, and working with **MQTT-based IoT systems**. Strong experience in end-to-end feature development, enterprise workflows, database design, performance optimization, and Agile software delivery.

TECHNICAL SKILLS

- **Frontend:** React, Typescript, JavaScript, Tailwind CSS
- **Backend:** Java, Spring Boot, REST APIs, MQTT
- **Databases:** PostgreSQL, SQL
- **SCADA & Automation:** SCADA UI/HMI, PLC Automation, IoT Integration
- **Tools & DevOps:** Git, GitHub, Version Control, Postman, Selenium, Docker

PROFESSIONAL EXPERIENCE

Software Engineer – SE-1 | Terracos Technologies Pvt Ltd, Hyderabad

JUL 2025 – Present

- Developed full-stack web applications for enterprise HRMS, Payroll, and IoT platforms using **React, TypeScript, Spring Boot**, and **PostgreSQL**.
- Designed and implemented responsive, user-friendly frontend interfaces using **Tailwind CSS**.
- Implemented custom **SEO strategies** and **Static Site Generation (SSG)** for faster page loads.
- Built real-time dashboards with **Supabase** for monitoring alarms and device data.
- Developed complex backend logic for **payroll calculations** and automated reporting.
- Integrated IoT hardware devices **using MQTT** and **REST APIs** for environmental monitoring.
- Developed and maintained **automation** and **manual testing workflows** to improve software quality and release reliability.
- Collaborated in **sprint planning**, feature estimation, architecture discussions, and **Agile software delivery**.

Software Engineer Intern | Terracos Technologies Pvt Ltd, Hyderabad

APRIL 2025 – JUN 2025

- Developed responsive **React** and **TypeScript dashboards** for the Building Management System (BMS).
- Built attendance management UI components and designed **PostgreSQL database structures**.
- Integrated **REST APIs** and IoT services for real-time device communication and monitoring.
- Fixed production issues and optimized frontend performance in an **Agile environment**.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Jayaprakash Narayan College of Engineering | CGPA: 6.86 | 2021 – 2024

Diploma – Electrical & Electronics Engineering

Jayaprakash Narayan College of Engineering | CGPA: 6.49 | 2018 – 2021

CERTIFICATIONS

- **Claude 101 Certification** – Anthropic
- **Full Stack Development with Cloud Computing** – EY-GDS
- **Data Structures & Algorithms in Java** – GeeksforGeeks
- **Cloud Computing** – IBM
- **Java Fundamentals** – Oracle Academy
- **CCNA** – Cisco
