SUMMARY

Software Engineer (SE-1) with hands-on experience building enterprise SaaS applications across **HRMS, Payroll, Attendance Management, Building Management (BMS), SCADA, and Industrial IoT** domains. Experienced in developing scalable frontend applications using **React, TypeScript, Tailwind CSS**, integrating backend services with **Spring Boot, PostgreSQL (Supabase)**, and **REST APIs**, and working with **MQTT-based IoT systems**. Strong experience in end-to-end feature development, enterprise workflows, database design, performance optimization, and Agile software delivery.

TECHNICAL SKILLS

- **Languages:** Java, TypeScript, JavaScript, HTML, CSS, Python (Basics)
- **Frameworks & Libraries:** React.js, Spring Boot, Tailwind CSS, Bootstrap
- **Databases:** Supabase, PostgreSQL, MySQL
- **SCADA & Automation:** SCADA UI/HMI, PLC Ladder Logic, Function Block Diagram
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Cursor, NetBeans, Vercel
- **Testing:** Manual Testing, Automation Testing
- **APIs & Cloud:** REST APIs, MQTT, Supabase
- **Development Concepts:** Data Structures & Algorithms, OOP, MVC, Agile/Scrum, SDLC, Debugging
- **Cloud & AI:** AWS (Basics), GitHub Copilot, ChatGPT, Claude

PROFESSIONAL EXPERIENCE

Software Engineer – SE-1 | Terracos Technologies Pvt Ltd, Hyderabad

Oct 2025 – Present

- Developed and enhanced enterprise SaaS applications across **HRMS, AMS, Payroll, BMS, CMS, HMS, and SCADA** platforms, supporting workforce management, industrial monitoring, and business operations.
- **Owned end-to-end implementation** of enterprise features including React UI development, database design, backend API integration, testing, deployment, and production support.
- Designed and implemented complex **Payroll and HRMS modules**, including attendance processing, leave management, shift scheduling, salary computation, approval workflows, reporting, and policy-driven business logic.
- Developed **SCADA UI/HMI dashboards** for industrial monitoring with real-time visualization, alarms, and IoT device communication.
- Integrated industrial devices, biometric systems, and sensors using **MQTT, REST APIs**, and **Supabase** for real-time synchronization.
- Improved application performance through frontend optimization, reusable component architecture, SEO improvements, and production enhancements.
- Developed and maintained automation and manual testing workflows to improve software quality and release reliability.
- Collaborated in sprint planning, feature estimation, architecture discussions, and Agile software delivery.

Software Engineer Intern | Terracos Technologies Pvt Ltd, Hyderabad

Jul 2025 – Sep 2025

- Developed responsive React and TypeScript dashboards for the Building Management System (BMS).
- Built attendance management UI components and designed PostgreSQL database structures using Supabase.
- Integrated REST APIs and IoT services for real-time device communication and monitoring.
- Fixed production issues, optimized frontend performance, and contributed to feature development in an Agile environment.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Jayaprakash Narayan College of Engineering | CGPA: 6.86 | 2021 – 2024

Diploma – Electrical & Electronics Engineering

Jayaprakash Narayan College of Engineering | CGPA: 6.49 | 2018 – 2021

CERTIFICATIONS

- Claude 101 Certification – Anthropic
- Full Stack Development with Cloud Computing – EY-GDS
- Data Structures & Algorithms in Java – GeeksforGeeks
- Cloud Computing – IBM
- Java Fundamentals – Oracle Academy
- CCNA – Cisco
